Education

K L University, Vijayawada

B.Tech in CSE (Artificial Intelligence & Intelligent Process Automation)

2022 – 2026

CGPA: 8.63

Narayana junior college

Class XII (Senior Secondary)

2020 – 2022

Percentage: 81%

Technical Skills

- **Programming Languages:** Python, C
- **Databases:** MySQL
- **Core Concepts:** Data Structures and Algorithms

Soft Skills

- Strong communication
- Collaboration and teamwork
- Adaptability
- Problem-solving

Projects

- **Tutor AI – Intelligent Learning Platform**
 - Built an AI-powered tutoring and interview preparation platform using Next.js and Google Gemini API.
 - Implemented dynamic question generation, response evaluation, and contextual feedback using LLMs.
 - Enabled voice-based interaction via speech-to-text and managed user data with PostgreSQL and Drizzle ORM.
- **AI-Based Genetic SNP Analysis for Early Risk Prediction of Type 2 Diabetes**
 - Developed a machine learning model using SNP genetic data to predict early risk of Type 2 Diabetes.
 - Implemented XGBoost and Random Forest models achieving high prediction accuracy.
 - Performed data preprocessing, genotype encoding, and feature selection to improve model performance.
 - Applied SHAP for model interpretability to identify key genetic risk factors.
- **Flight Booking System**
 - Built a scalable flight booking system handling 500+ transactions/day with real-time seat selection.
 - Developed secure RESTful APIs, improving system performance by 40%.
- **Automobile Management System**
 - Led a 3-member team to develop a vehicle management platform handling 500+ daily operations.
 - Implemented secure transactions and real-time vehicle status tracking using API-driven services.

Certifications

- **Cloud & AI Platforms**
 - **Salesforce Certified Agentforce Specialist** – Salesforce
 - **Salesforce Certified AI Associate** – Salesforce
- **Development**
 - **Red Hat Certified Enterprise Application Developer** – Red Hat
 - **Oracle Certified Professional** – Oracle
